

# GET INVOLVED – FDA’S MENTOR PROGRAM

## STUDENT • NEW DENTIST • MENTOR

The Florida Dental Association’s Dr. Louis J. Atkins Mentor Program gives dental students and dentists in practice less than five years the opportunity to match-up with FDA-member mentors. Students and new dentists benefit from experienced practitioners’ points of view. Mentors are rewarded by supporting new dentists, and dental students from Nova and the University of Florida.

Please type or print clearly.
